

# Acryflex

## Description:

High performance, flexible and fibre-reinforced acrylic coating.

Can be applied to damp surfaces but ponding water should be removed.

## Use:

Repairs, routine maintenance and seamless waterproofing membrane for complete roofs: bitumen roof felt, fibre cement, metal, tiles, slates and concrete.

## Packaging:

5kg metal tin (item number 02400806)

20kg metal tin (item number 02400808)

## Storage:

2 years in the hermetically sealed packaging, when stored in a dry, cool and frostfree place.

Partly used containers may be resealed and used again after correct storage.

To avoid the risk of spillage, always store and transport in a secure upright position.

## Colour:

Grey

## Technical characteristics:

Dry substance	+/- 66%
Density	+/- 1 g/cm <sup>3</sup>
Viscosity	13.000-25.000 mPas (Brookfield 25°C, spindle 6/20rpm)

## Application:

The substrate needs to be sound, clean and free from grease and non-adhering particles.

Algae and fungi must be removed with a stiff broom and the surface treated with IKO pro Algae and Fungi Remover.

Stir well before use.

Apply IKO pro Acryflex in one layer using a stiff brush, working well into any damp areas to displace the moisture. Apply liberally, especially over split and cracked areas.

## Consumption rate:

1-2 kg/m<sup>2</sup> depending on the substrate

## Cleaning of tools:

IKO tech Cleaner

## Certificates:

Production ISO 9001 & 14001
