

Synthaprufe Original

Description:

High performance brush applied damp proofing and solventfree bitumenemulsion containing synthetic rubber latex.

Low odour, with exceptional flexibility and crack resistance, even at low temperatures.

Excellent resistance to sulphates and other soil salts.

Use:

Damp proof membrane and water-repellent coating, used prior to the erection of masonry.

Packaging:

5L metal tin (item number 02401920)

25L metal tin (item number 02401930)

Storage:

12 months in the hermetically sealed packaging, when stored in a dry, cool and frostfree place.

Partly used containers may be resealed and used again after correct storage.

To avoid the risk of spillage, always store and transport in a secure upright position.

Colour:

Black

Technical characteristics:

Dry substance	+/- 60%
Density	+/- 1,0 g/cm ³
Viscosity	4.400-5.800 mPas (Brookfield 25°C, spindle 4/10 rpm)

Application:

The substrate needs to be sound, clean and free from grease and non-adhering particles.

Any hollows in the structure must be filled with cement mortar to an even and smooth finish.

Porous and warm, dry surfaces should be dampened with clean cold water.

The temperature during application and curing should be minimum +5°C.

Do not apply in wet weather or when rain or frost is likely.

Stir product well before and during application.

Apply IKO pro Synthaprufe Original evenly by brush and in one direction.

Allow drying thoroughly before subsequent layer is applied.

Consumption rate:

2 layers of 0,5 L/m²

Cleaning of tools:

With water while the product is still wet or with white spirit if dry.

Certificates:

Production ISO 9001 & 14001
