Canister Gun

Description:

Spray gun with metal body and professional design.

This gun is hermetically sealed, which prevents the foam from curing inside the gun.

Use:

Application of IKO pro Sprayfast and IKO pro Activator.

The gun enables the user to adjust the product flow.

Sizing and palletization:

Gun (item number 02402205)

Colour:

Metal

Application:

Connect the gun to the braided IKO pro Canister Hose and connect this to the pressurised canister.

The technical information regarding the application of liquid waterproofing products supplied by IKO is provided in good faith on the basis of IKO's current know-how and experience, and assumes that these products will be used in accordance with the above-mentioned recom-mendations, under normal circumstances, and provided that these products were stored and handled in the correct manner. The above-mentioned information is only intended to inform the user about the various properties and/or recommendations and can in no way be consid-ered as a guarantee with regard to the merchantability and suitability for a specific purpose in view of the continuously changing environmental factors, including the specific conditions at the building site, the use of different materials and substrates, etc. As a result, and with the exception of binding legal stipulations to the contrary, IKO cannot be held liable on the basis of the provided information, and any other written recommendations and/or advice. Please contact IKO if you have any doubts regarding the processing, the end use or the application of these products.
